- MongoDB
- Firebase
- Auth.js

NAIMUR RAHMNA SARDUL

Junior Full-stack Web Developer

ABOUT ME

Though I am studying Textile Engineering, my focus and dedication are in the tech world and I want to delve into the deep sea of this dynamic field. I see coding not as my work, but as my passion. And working with passion makes me feel energized rather than exhausted. So, I always try to enjoy myself while coding.

PROJECTS

QNA app (Next.js)

[GitHub](#) [Live](#)

Features

- Responsive UI
